Upcoming Headers

Additional Information

Server	This Server header seems to advertise the software being run on the server but you can remove or change this value.
Content-Security-Policy	Content Security Policy is an effective measure to protect your site from XSS attacks. By whitelisting sources of approved content, you c browser from loading malicious assets. Analyse this policy in more detail. You can sign up for a free account on Report URI to collect re problems on your site.
X-Frame-Options	X-Frame-Options tells the browser whether you want to allow your site to be framed or not. By preventing a browser from framing you defend against attacks like clickjacking.
X-Content-Type-Options	X-Content-Type-Options stops a browser from trying to MIME-sniff the content type and forces it to stick with the declared content-typ valid value for this header is "X-Content-Type-Options: nosniff".
